Summary

Dynamic and results-driven United States Army veteran with over 20 years of leadership and technical expertise in welding, mechanics, and team management. Renowned for delivering exceptional customer service, administrative excellence, and fostering strong professional relationships. Demonstrates advanced proficiency in policy compliance, operational planning, and execution of complex projects in high-pressure environments. Adept at integrating hands-on technical skills with strategic leadership to optimize team performance and achieve organizational objectives. Recognized for a commitment to continuous improvement, milestone achievement, and driving impactful results. Seeking a management role to leverage a unique blend of technical mastery and leadership acumen to propel organizational growth and operational excellence.

Experience

Allied Trade Specialist Supervisor
US Army

11/2000 to Current
Fort Irwin, United States

Ensured the quality of deliverables by thoroughly evaluating and inspecting fit and assembled parts during the manufacturing process. I implemented corrective actions to address defects in machine tool fabrication and repairs. Additionally, I reviewed contour conformity inspections to maintain high standards. My approach focused on precision and continuous improvement. This commitment helped maintain consistent quality across all deliverables.

- Oversaw the professional development of enlisted soldiers, conducting evaluations, and providing actionable feedback to ensure readiness and regulatory compliance.
- Conducted thorough inspections and assessments of completed units to identify and resolve defects, ensuring strict adherence to specifications and quality standards.
- Diagnosed and resolved machine tooling malfunctions during unit operations, identifying necessary adjustments or repairs to optimize performance, and ensure operational efficiency.
- Supervised and mentored junior enlisted soldiers, providing technical guidance and support to ensure the successful completion of tasks and the achievement of operational goals.
- Executed administrative tasks to ensure the accuracy of personnel files, and compliance with regulatory documentation standards.
- Compiled and analyzed operational reports to validate data efficiency, using insights to drive the execution of programs that enhanced departmental effectiveness and performance.

- Initiated and led mechanical evaluations and operations, driving safety, optimizing efficiency, and ensuring strict adherence to product specifications.
- Oversaw daily Service and Recovery (S&R) missions, delivering critical support to enhance unit operations, and ensure mission success.

Acting First Sergeant/Sergeant First Class

U. S. Army

07/2015 to 11/2024

Chicago, United States

Successfully managed a team of 80 to 200 personnel, taking charge of critical operations to ensure convoy readiness. This included overseeing detailed inspections, evaluating performance, and executing diagnostic protocols for cargo security, mechanical integrity, and electrical systems. I also worked closely with team members to optimize operational efficiency and address challenges proactively. My leadership ensured that all safety and operational standards were met, contributing to the seamless execution of missions. This role required a strong focus on coordination, attention to detail, and the ability to inspire a large team to achieve shared objectives.

- Managed a \$1M+ maintenance budget, utilizing strategic planning and risk management to meet deadlines, and ensure preventative maintenance. Consistently delivered vehicles that exceeded technical specifications. Drove operational excellence by optimizing performance and maintaining strict budget control.
- Spearheaded company briefings on the impact of security threats, analyzing intelligence on current and emerging events. Delivered clear communication on critical deadlines, and enforced data security protocols, safeguarding confidentiality, and ensuring full compliance with U.S. Army regulations.
- Led tactical, operational, and strategic analyses, ensuring the secure handling of classified reports and protecting sensitive data to support critical operational tactics.
- Served as a senior vehicle operator during field exercises, supporting welding, machine operations, and equipment damage assessments. Maintained detailed records for vehicle control officers, ensuring efficient management and operations.
- Prepared and secured combat flight manifests, ensuring alignment with brief operational commands to maintain mission integrity and safety.
- Fostered strong relationships with internal and external stakeholders through targeted outreach initiatives, enhancing community engagement, and strengthening team rapport. Led efforts that boosted employee morale and promoted a collaborative, positive work environment.
- Designed and delivered comprehensive career development and skills training programs for noncommissioned officers (NCOs), enhancing their professional growth and leadership capabilities.
- Led comprehensive training programs for troops, covering physical conditioning, tactical and technical guidance, and equipment operations. Ensured successful military transitions and combat readiness in preparation for separation.
