2012

Professional summary

Motivated, detail-oriented, and results driven professional seeking role in the preconstruction industry. Eager to apply 3D modeling skills to drive accurate quantity takeoffs, material analysis, and cost estimation. Leveraging skills in Total Cost Control with Excel, BIM Modeling with Revit, and Takeoffs with Bluebeam. Highly proficient in Lean Six Sigma, Risk Management, and Data Analysis, I have a proven track record of improving operational efficiencies while adhering to regulatory standards. Supporting my career transition is expertise in data-driven project management to enhance team performance and project outcomes.

Employment history

Agri Data Solutions | Process Improvement | Schaumburg, IL
09/2021 – 04/2026

- Trained and coached staff on continuous improvement methodologies, including 5S and error/mistake proofing.
- Analyzed current tax processes to identify improvement areas using Lean Six Sigma techniques and data analysis to spot trends.
- Facilitated Value Stream Mapping to identify bottlenecks and eliminate 15% waste in tax workflow processes.

Chicago Eye Care Center | Manager | Chicago, IL
03/2017 – 08/2021

- Boosted store revenue by 45% via strategic cost control and profit margin growth by applying process improvement initiatives.
- Utilized Lean methodologies to slash production and operational costs by 30% while boosting manufacturing efficiency to improve final product.

Argon Credit | Credit Risk Manager | Chicago, IL
06/2015 – 01/2017

- Designed and built a control dashboard using excel to streamline management decision-making, enabling real-time data analysis and risk assessment for C-level presentations.
- Implemented underwriting guidelines along with compliance protocols and initiated a training program, enhancing efficiency and sustainability.

CCA Midwest | Carpenter | Des Plaines, IL
02/2015 – 06/2015

- Assembled and erected framing, trusses, and signage for townhome construction according to drawings while following safety protocols.
