SUMMARY

Motivated and detail-oriented aspiring BIM Modeler with a background in 3D Animation and hands-on experience in digital modeling using Revit and AutoCAD. Strong foundation in visualizing complex systems, organizing digital information, and supporting collaborative workflows. Demonstrated ability to coordinate communication across large teams, manage detailed information, and contribute to well-organized project execution. Passionate about building engineering and the role of BIM in delivering efficient, innovative, and high-performance environments. Eager to grow within a multidisciplinary team and contribute to the development of coordinated digital models that support project delivery from concept through construction.

EXPERIENCE

Scheduling Coordinator

Rooted Dental Care

February 2024 – Present, Chicago, IL

- Managed scheduling workflows to optimize daily operations and team efficiency.
- Communicated with patients and staff through multiple channels, ensuring clear and timely information flow.
- Worked cross-functionally with team members to coordinate tasks and maintain consistent daily operations.
- Developed and maintained spreadsheets to track schedules, data, and workflow processes.
- Handled multiple concurrent tasks while maintaining accuracy and meeting deadlines in a fast-paced environment.

Volunteer Communications Lead

ACM SIGGRAPH

January 2024 – August 2024, Remote

- Managed high volume communications with hundreds of participants, ensuring clarity and consistency across all messaging.
- Coordinated logistics for a large scale conference, supporting efficient group organization and workflow.
- Reviewed and assessed volunteer applications, to find driven, team-focused applicants.
- Directed on-site coordination during a large industry conference, supporting team collaboration and real-time problem solving.

3D Modeler

RIT MAGIC Spell Studios

January 2019 – May 2022, Rochester, NY

- Created scale 3D models using industry-standard software such as Blender and Maya.
- Collaborated with game developers to ensure models met project specifications and quality standards.
- Streamlined modeling workflows to develop modular assets where possible.

EDUCATION

Bachelor of Fine Arts

Rochester Institute of Technology • Rochester, NY • 2022

- RIT Presidential Scholar
- RIT Recognition Scholar
- RIT Dean's List

SKILLS

To-Scale 3D Modeling

Project Management

Technical Software: Autodesk Revit (basic), Autodesk Maya, Blender

Team Workflow

Attention to Detail
