EDUCATION

University of Illinois Urbana-Champaign
Master of Science in Structural Engineering

Expected: May 2026

Beijing University of Civil Engineering and Architecture
Bachelor of Management in Construction Cost

June 2024
GPA: 3.52/4.0

SKILLS

Software: AutoCAD, Revit, Glodon GCCP, Glodon GTJ, Navisworks, Matlab, Abaqus, SAP2000

Languages: English (Fluent), Chinese (Native), Spanish (Classroom-level), Japanese (Classroom-level)

WORKING EXPERIENCE & INTERNSHIPS

Shanghai Yongye Enterprise (Group) Co., Ltd *Construction Supervision Assistant* Jan. 2024-Mar. 2024

- Inspected 1 construction site daily and reviewed drawings to identify constructability issues.
- Verified contract details to ensure compliance with engineering standards during foundation works.
- Utilized software tools to produce 5 technical drawings and assisted in overseeing foundation construction processes.

Shanghai Construction Group Co., Ltd *Business Assistant* July 2023-Oct. 2023

- Reviewed 6 project contracts and blueprints, conducted daily site evaluations to optimize engineering designs.
- Assisted in the bidding process and cost estimation, gaining hands-on experience in construction budgeting.
- Researched material pricing, analyzed competitor bids, and assessed supplier qualifications.

Shanghai Green City Hongsheng Construction Development Co., Ltd *Intern Documenter* July 2022-Aug. 2022

- Developed 4 detailed project budgets, ensuring alignment with financial objectives and cost control measures.
- Assisted in preparing 3 bidding documents and evaluated proposals using specialized software.

Shanghai Suihua Waterproof and Anti-corrosion Engineering Co., Ltd *Intern Inspector* July 2021-Aug. 2021

- Performed coating tests on thickness, adhesion, and hardness to ensure industry compliance.
- Verified construction drawings, compiled site data, and prepared comprehensive testing reports.

PROJECTS & RESEARCH EXPERIENCES

Group Project: Seismic Design of Bridges Jan. 2025-Aug. 2025

- Modeled the Golden Gate Bridge in Abaqus for seismic response simulation.
- Processed vibration data in MATLAB to compute modal frequencies, displacements, and dynamic force demands.
- Assessed seismic retrofit performance through comparative response analysis.

Dynamic Response of Bridges under Moving Loads Jan. 2025-May 2025

- Modeled bridge response under moving loads in Abaqus to simulate deflection and vibration behavior.
- Processed dynamic response and implemented time-integration schemes in MATLAB.
- Evaluated effects of vehicle speed, load magnitude, and structural stiffness on structural performance.

Feasibility Study of the Creative Wisdom Valley Entrepreneurship Park Project Mar. 2024-June 2024

- Analyzed feasibility, assessing construction background, requirements, business model, financing, impact, and risks.
- Divided the plot into 3 functional areas, tailoring each to specific needs and design objectives.
- Implemented modern strategies while ensuring financial sustainability through policy support and investment
- Resolved project risks through discussions on policy, market, finance, and operations, providing strategic solutions.

EXTRACURRICULAR ACTIVITIES

Academic Development Center, BUCEA *Peer Mentor* May 2022-June 2024

- Mentored 2-3 students weekly on courses, competitions, and personal development.

School of Humanities, BUCEA *Teaching Assistant* Sept. 2022-June 2024

- Assisted Prof. Jun Wang for 4 semesters in teaching College English I, II, and Speech courses.
- Graded assignments and midterm exams, answered student queries, and drafted lesson plans for each class.
